0.12 System map

The map shows the parts of Graal this manual describes and how they connect. Each box names a program, a family of builds or a body of files, and each arrow a link between them, labelled with the section that describes it. In the PDF the map is an A3 landscape page; the print set carries it as a separate A3 insert (→ §0.11).

Arrows point from the side that connects or acts; two heads mean both ways. Dashed: inside one program. Section numbers are where the manual describes each part or link.
